

**HeBoCoat®**  
**EXPERT LINE**

The specialist in action

When standard products reach their limits, special products - such as the **HeBoCoat® EXPERT LINE** - are called for.

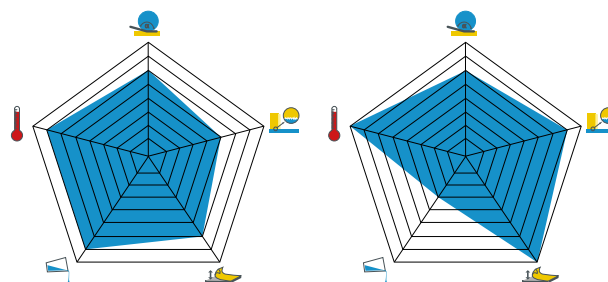

This series was developed especially for challenging customised applications. HENZE BNP experts align additives, binder systems and special boron nitride powders to the specific requirement profile, resulting in customised products.

The **HeBoCoat® EXPERT LINE** products ensure high process reliability and efficiency in your application.

	<b>HeBoCoat® EL-W 250</b>	<b>HeBoCoat® EL-W 300</b>
<b>Base</b>	Water	Water
<b>Binder</b>	Aluminium oxide	none
